AGILE PROJECT MANAGEMENT
with Jira

2 Days Intensive Hands-on Workshop

Enroll Now

Key Benefits

Master Agile Methodology & Frameworks

Gain a comprehensive understanding of Agile principles, frameworks (Scrum, Kanban, Lean, etc.), and their applications to enhance adaptability and deliver value in dynamic project environments.

Hands-On Experience with JIRA

Learn to effectively use JIRA for project planning and execution, including creating backlogs, managing user stories, prioritizing tasks, and organizing sprints for real-world project scenarios.

Develop Leadership and Team-Building Skills

Embrace Agile practices like servant leadership, team collaboration, and the Agile Way of Working (WOW) to foster a productive and motivated project team environment.

Who Should Attend

This workshop is ideal for Project Managers, Scrum Masters, Product Owners, Business Analysts, Developers, and IT professionals looking to adopt Agile methodologies and master JIRA for efficient project management. It's also perfect for entrepreneurs, startup founders, and students eager to enhance their skills in Agile project planning, execution, and team collaboration. Whether you're transitioning to an Agile role or seeking to refine your expertise, this workshop is for you!

Program Details

PKR 80,000/- (+5% SST)

2-Days (16 hours)

22nd & 23rd April 2025
Tuesday & Wednesday

Why Attend This Workshop?

This workshop focuses on hands-on learning with real-world exercises and live JIRA practice, minimizing theory. Gain practical skills to plan, execute, and monitor Agile projects effectively, making it ideal for professionals seeking immediate, actionable results.

AGILE PROJECT MANAGEMENT
with Jira *2 Days Intensive Hands-on Workshop*
