1-day workshop

LEGACY TO CLOUD
FAST TRACK DIGITAL READINESS

o accelerate digital transformation & cloud migration strategies.

Introduction

In an age where agility, scalability, and innovation are non-negotiable, cloud transformation is no longer a tech upgrade—it is a strategic imperative. This workshop is specially designed for senior leaders seeking to transition their organizations from legacy systems to a future-ready, cloud-first infrastructure. Through real-world case studies, strategic frameworks, and executive-level dialogue, participants will gain a clear roadmap for enabling secure, cost-effective, and value-driven digital transformation through cloud technologies.

Key Benefits

- Evaluate cloud-readiness across organizational functions
- Understand the business case for cloud migration
- Identify risk factors and compliance considerations
- Align cloud adoption with business growth and innovation goals
- Prioritize change management and upskilling in cloud transformation

Program Details

📅 **Dates To Be Announced**

💰 Investment: Rs. PKR 65,000 + 3% SST

📍 Venue: IBA City Campus

🕐 Duration: 9:30 AM – 5:30 PM

Program Outline:

Welcome & Icebreaker: The Digital Readiness Heatmap

Session 1: From Legacy to Cloud – Framing the Strategic Imperative

- Global trends: Why legacy systems are holding businesses back
- Key drivers: Agility, cost-efficiency, innovation
- Strategic models: Lift & shift vs replatforming vs full cloud-native rebuild
- Case Study: Local & global digital transformation journeys
